Columbia/Courant probability series

Friday October 9th  
New York University  
Warren Weaver Hall, 512

TALKS:
9.30am  Hoi Nguyen (IAS and Ohio State University)  
Anti concentration of random walks and  
eigenvalue repulsion of random matrices
10.30am  Coffee break
11am  Nina Snaith (Bristol University)  
Combining random matrix theory and number theory
12pm  Ramon van Handel (Princeton)  
The norm of structured random matrices
