Tandon MS Mathematics Graduation Checklist

Student Name: ________________________

N#: ______________________

Expected Graduation Term: ________________________

Graduation Requirements:

☐ 30 Credits total

☐ 18 of 30 credits minimum taken at Tandon

☐ 15 of 30 credits minimum in Mathematics

☐ 12 credits of Required Coursework

☐ 3.0 or above cumulative GPA

☐ No more than 9 credits of project, guided studies, readings, or thesis

☐ Completed within 5 years from the beginning of graduate studies at NYU Tandon

☐ Maximum of 9 credits of degree can be completed with Transfer Credit (21 credit residency requirement)

Important Policies & Guidelines:

- All students must adhere to the University’s add/drop registration deadline. Students are not able to enroll in courses after the add/drop deadline. There are no exceptions.

- Students taking project or thesis must register for at least 3 credits of project or thesis every semester until the work is completed and a grade recorded.

- A project usually entails 3 to 6 credits, while an MS thesis is generally a more extended piece of research, usually entailing 6 to 9 credits.

- Graduate students are expected to progress in their studies and maintain a minimum 3.0 cumulative GPA at all times. Failure to do so results in the student being placed on academic probation. Graduate students are permitted a maximum of 2 semesters of probation, and these semesters need not be sequential in order to count towards the maximum limit.
